About Us

The Design Atelier (TDA) is a multi-disciplinary interior design studio specialising in Commercial and Residential interiors as well as custom product design. TDA was founded in New Delhi, India in 2005. We undertake projects in Canada and India.

We are pleased to present our exclusive handmade pottery collection. Each item in the collection has been meticulously hand-crafted combining traditional techniques like hand-pressing and moulding, with timeless aesthetics. This handmade pottery collection provides functional versatility, elegance, and enduring charm with its earthy appeal.

All the articles have been made with premium-quality white cement, our own custom-made cement clay, terrazzo chips, river rocks and pebbles, gravel, and recycled materials.

Finishing is done with environmentally friendly sealants, offering both durability and aesthetic appeal. They are ideally suited for enhancing interior décor or serving as thoughtful gifts for special occasions.
